

100% RENEWABLE ENERGY AND POVERTY REDUCTION IN TANZANIA

CONSULTATION WORKSHOP
12TH JULY 2016, KUNDUCHI BEACH HOTEL, DAR ES SALAAM

AGENDA

09:00 Registration

09:30 Welcome remarks

Sixbert Mwanga, CAN-Tanzania
Joachim Fuenfgelt, Bread for the World
Anna Leidreiter, World Future Council

10:00 Ice breaker and round of introduction

10:30 Tanzania`s Energy Vision: A World Café

- Tanzania has the political goal to be a middle income country by 2025. What does it mean for you? What are the indicators that define Tanzania to have reached this goal?
- How does the energy system look like when Tanzania is a middle income country (one national grid? Decentralized/ distributed infrastructure? How is energy produced? Who produces energy? Who has access to what kind of energy services?)
- What stands in the way for Tanzania to be a middle income country?

11:15 Tea Break

11:45 Immersing in Energy Politics in Tanzania

- Who are the change agents to implement our vision?
- What policies/ laws exist to facilitate the implementation of our vision?
- What governmental institutions have a mandate to work on RE and energy access?

13:15 Group Photo Session and Coffee and Lunch Break

14:30 Small group discussions in constituencies

Government/ Parliament/ Financial Institutions

- What is the scope of the mandate of each institution working on RE and energy access?
- How are current RE initiatives financed/ What is the mechanism for infrastructure investments, specifically in the energy sector?
- Where do you see the need for policy amendments to scale up RE to reduce poverty in Tanzania?

Development partners

- What are the necessary steps to ensure domestication of RE in Tanzania?
- What do global initiatives and agreements mean for Tanzania (e.g. Paris Agreement, SE4ALL, the SDGs and AREI)?
- Where do you see the need for policy amendments to scale up RE to reduce poverty in Tanzania?

Civil society/ Faith groups

- What are the necessary steps to ensure domestication of RE in Tanzania?
- Are there platforms (formal or informal) to work on RE/ energy access across institutions and/or sectors (e.g. different ministries/ authorities, government and parliament, government and private sector, government and civil society)?
- Where do you see the need for policy amendments to scale up RE to reduce poverty in Tanzania?

16:30 Tea break

17:00 Plenary with report back and wrap up

18:00 Evening Reception
