Welcome to our March Newsletter!

Dear friends,

What are the solutions for our common future? We are working tirelessly towards our vision to create a peaceful and healthy planet with just societies.

In this first newsletter of 2024, we present inspiring initiatives and progress from various areas that are moving us towards a world worth living in. From ground-breaking policy decisions to innovative solutions, be inspired and encouraged by the positive changes taking place around the world. Together, we can overcome obstacles and take steps towards a better future for ourselves and future generations.

In this issue, we would once again like to present some inspiring stories and developments that encourage us and make it clear that together we can shape the path to a promising future.

The **Future Policy Award 2024** is just around the corner! And the topic is more relevant than ever. Lasting peace is perhaps the most important component for the sustainable development of societies and the protection of people and the planet. That's why this year we are honouring innovative and effective peace policy measures for current and future generations.

We then travelled to the Himalayan region, where we are advising a special **agroecology project to promote sustainable food systems**.

A member of our Supervisory Board was honoured with the **Order of Merit of the Federal Republic of Germany**, while we have made **significant**

progress in the protection of endangered marine life.

We are also proud to be part of a **Germany-wide initiative to promote diversity** and would like to shine a light on the upcoming **Annual General Meeting**.

Last but not least, we welcome a **new star to the award sky**, which is characterised by its unique focus: The first political award specialising in protecting people and the environment from hazardous chemicals in buildings.

There is so much to discover - we don't want to give too much away.

We thank you for your continued support and hope you enjoy reading!

Alexandra Wandel

Chair,
Management Board

L. Ziem

Scaling up agroecology in the Himalayas

As a follow-up project to the Future Policy Award on agroecology, we are **campaigning for more sustainable food systems in the Himalayan region** of India, Nepal and Bhutan. In the course of a visit, we met our project partners and founding member Vandana Shiva.

Non Haz City Building Award

The **NonHazCity Building Award** is the first political award to recognise the best building policy in the Baltic Sea Region at local, regional or national level. The aim of the award is to **recognise policies to protect people and the environment from hazardous chemicals in buildings** that combine the three aspects of non-toxicity, climate neutrality and circular economy. The World Future Council coordinates and awards the prize as part of the [NonHazCity 3](#) project.
